DESIGNER PVC LAMINATES

GLAM GUIDE 2020

About Crossbond

Crossbond PVC laminates have been carefully crafted to exceed the interior decoration needs of our valuable customers while maintaining high quality standards. Our extensive product range and strong sense of urgency makes us a consistent partner for all your needs.

With more than 26 Years of experience in the panel and wood manufacturing industry. Metro Group is the proud operator of Crossbond. In its path to continued growth and development. Metro Group has invested heavily in infrastructure and research. In addition to manufacturing PVC laminates. Metro Group also manufactures Aluminium Composite Panels, Aluminium Partition Panels, MDF Board, MDHMR Board, Particle Board and Ply Boards.

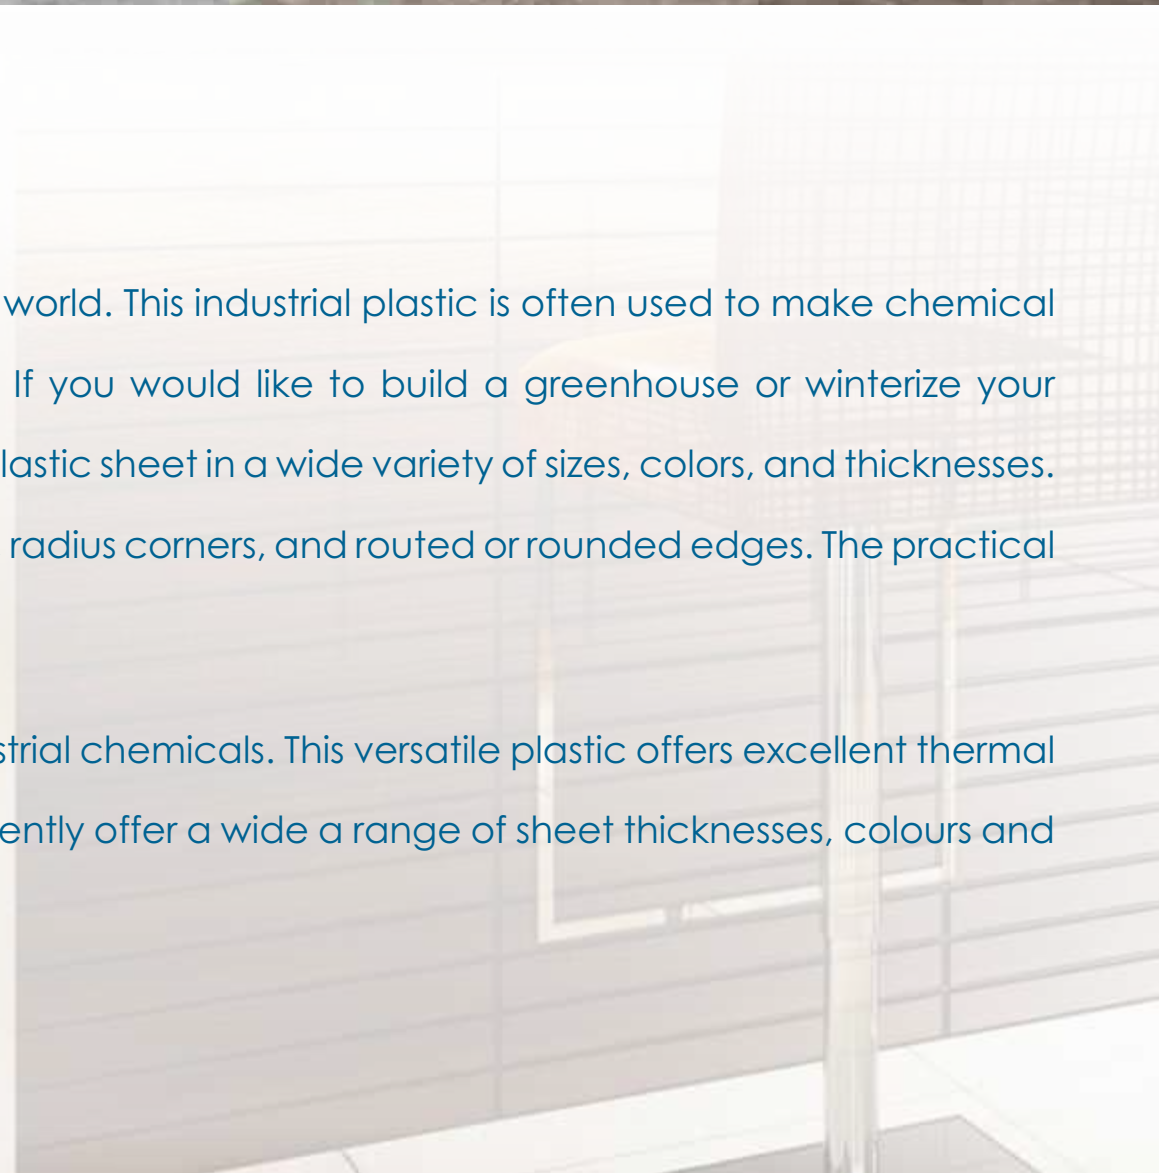

At Crossbond, we focus on the latest global trends to manufacture new products that are of superior quality, easy to install, resistant to damage and are available in a wide variety of colours, sizes and designs. Our ability to continuously innovate has been well received by architects, builders, fabricators, and end customers.

What is PVC?

Polyvinyl chloride (PVC) is one of the most widely used plastics in the world. This industrial plastic is often used to make chemical storage tanks, oil tanks, and photographic developing instruments. If you would like to build a greenhouse or winterize your windows, look no further than our PVC sheet selection. We offer PVC plastic sheet in a wide variety of sizes, colors, and thicknesses. Give your PVC project the finished look you desire by requesting holes, radius corners, and routed or rounded edges. The practical applications of PVC are endless.

PVC sheet features high-impact strength and resistance to most industrial chemicals. This versatile plastic offers excellent thermal and sound insulation, so it absorbs vibrations and oscillations. We currently offer a wide a range of sheet thicknesses, colours and custom sizes to choose from.

Why Crossbond PVC?

Crossbond PVC laminates have been carefully crafted to exceed the interior decoration needs of our valuable customer while maintaining high quality standard. Our laminates are available in industry leading colours and designs. These laminates have found extensive usage in kitchen cabinets, wardrobes, furniture and display cabinets.

Features Of PVC

-  **100% Colour Core***
-  **Water Proof**
-  **Anti -Termite, Borer and Fungus**
-  **Low Coefficient of Expansion**
-  **High Gloss**
-  **Minimal Maintenance**
-  **90° Bendable**
-  **Low Carbon Footprint**
-  **Reusable Production Cycle**
-  **Replaces Wood to Save Forests**

90° BENDING PROCESS IN PVC LAMINATES

Designer PVC Laminate Sheets can be cut, routed and drilled with standard wood Working tool or equipments (CROSSBOND recommends use only Diamond Cutter Blades).

PERFECT 90°
BENDING

Designer PVC Laminate Sheets can be cut, routed and drilled with standard wood working tool or equipments (CROSSBOND recommends use only Diamond Cutter Blades) must be sharp to remove any burns that may occur in the cutting process. We recommend the use of a smooth file to feather all corner edges.

For bending the PVC Laminates Sheets make use of 8 mm V - Groove Blade. The groove should be depth 0.8mm & width 5mm or more. The routed sheet will easily band up to 90°

Edge band tape not required

OUR CERTIFICATION

PRODUCT INFORMATION

SPECIFICATION	
Standard Laminate Thickness	1.20mm
Textured Laminate Thickness	1.40mm* (colour core and 90° bending as per availability)
Standard Laminate Size	1220mm x 2440mm
PRODUCT TOLERANCE	
Laminate Thickness	± 0.10mm
Laminate Squareness	0.5% of Length & Width
Laminate Size	± 0.01%

*Batch wise colours may vary. To ensure colour consistency, the total project requirement should be placed in one order.

INSTALLATION

Adhesive

- Our laminates can be easily pasted using standard laminating systems.
- They are compatible with most water based and solvent based conventional adhesives.
- We DO NOT recommend heat activated adhesives.

Lamination

- Appropriate substrate must be used and bonding procedures must be thoroughly observed.
- Substrate should be of superior quality plywood, high density particle board or fiber board.
- The face of the substrates must be smooth and free of grease, wax, dust and chips.
- We DO NOT recommend application of PU base, melamine and lamination wax.

Cutting and Machining

- Our laminates can be cut, routed and drilled with most standard wood working tools.
- We recommend the use of a smooth file to feather all corner edges or remove any burns.

Bending and Forming

- Our laminates can be bent easily upto 90°.
- All radius bending should be handled in the same manner as non-postforming decorative laminates.
- We recommend to use V-Groove cutter to bend the sheets at 90°

Storage and Maintenance

- We recommend that our laminates and substrates are stored at room temperatures.
- We DO NOT recommend the use of cleaning agent containing acids, alkalis or abrasives.

APPLICATION

- Kitchen Cabinets
- Home Furniture & Cabinets
- Display Cabinets
- Doors
- Storage Units
- Interior Partitions
- Wardrobes
- Offices Furniture & Cabinets
- Wall Linings
